Subject: Crane Co. Response

Clyde:

Thanks again for organizing our call this morning – it was very helpful for me. In regard to the response you are expecting from Crane Co. by tomorrow, please allow this note to serve that purpose. As I explained to you, I am unaware of any direct sales into California by Crane Co. or its subsidiaries of mercury containing thermostats. Crane Co. never manufactured thermostats, but it did have a Crane branded product on the markets decades ago (and not since then). I have been advised that only two thermostats have been recovered in California - one in 2009 and one in 2014. I do not believe that Crane is considered a manufacturer under the relevant California statute.

Notwithstanding this, as I also told you, I am more than willing to continue to urge TRC to increase its efforts to fortify its recovery program in California, and will take active measures in that regard.

Many thanks and best regards,

Anthony M. D'Iorio
